MACHINERY AND FARM DISPERSAL SALES

Henry H. Bletsoe & Son are recognised as leading auctioneers throughout the Midlands region with 130 years of experience.

With the changes in farming following the introduction of the Single Payment Scheme and an increasing need to control fixed costs, we are experiencing a growth in the number of contract farming and other arrangements. This provides the ability to release capital from farm machinery and equipment to allow the restructuring of the business.

Recently we have held farm dispersal sales in the counties of Bedfordshire, Oxfordshire, Northamptonshire, Cambridgeshire and Buckinghamshire.

Our expert team will deal with all aspects of sales, from initial advice, lotting and cataloguing and advertising through to sale day. Catalogues for sales are available from our office or via our website.

To discuss machinery and farm dispersal sales please contact:
