

CALL FOR POTENTIAL EMPLOYMENT LAND SITES ACROSS NORTHAMPTONSHIRE

Northamptonshire Enterprise Limited is currently holding a “call for potential employment sites”. This is part of an assessment of the availability of employment land in Northamptonshire up to 2026. The results from this process will form the basis of the reviews of Local Planning Policy and the allocation of commercial sites going forward.

Ideal sites would be adjacent to settlements and have good access and transport links. In addition, large ranges of redundant buildings in a former use may also be worth putting forward.

If you have any land you feel would be suitable for future commercial development in Northamptonshire then please do not hesitate to contact Andrew Middleditch or Peter Moore at our office before 27th February 2009.
