GENERAL INFORMATION

Bletsoes are delighted to be conducting this exciting sale of Pedigree Southdown Sheep, after the success from the two previous sales. This sale is geographically located with the Auction near the South and East coasts, closer to where the breed originated. The market is well situated with an excellent road network to make traveling to the sale simpler.

The sale has been designed to enable vendors to market their sheep without the worry of vet inspections and minimum weights or the pressure of the showring. But also give purchasers a guarantee to purchase genuine quality sheep. Buy with confidence, our auction rules and LAA Sale Conditions assist both the buyer and vendor to be assured they are covered for any issues that may occur, along with genuine vendors who are passionate about the breed and their stock.

For those unfamiliar with the breed of Southdown are a traditional breed that thrive, grow and produce easily finished lambs with low inputs, better than many other breeds, finishing on grass and milk which is very important with the ever-increasing pressure on high production costs we are currently experiencing. They are particularly known early finishing and easier lambing, the latter quality making them ideal for use on ewe lambs and older ewes.

We look forward to welcoming you to Thrapston Market and hope you have a good experience when visiting. We hope to have an excellent sale for both vendors and purchasers. If you have any questions prior to the sale, please do not hesitate to contact us.

Thrapston Market Team

Thank you again again

I would like to record my thanks to Jake and Beth for their hard work in helping make this sale happen. This event continues to grow and provides a valuable and convenient early opportunity in the East to buy pedigree Southdowns. It's great to welcome back past and new sellers. The lighter touch and realistic and fair prices usually encourages good clearance rates and satisfied customers. Let's hope everyone has good a day—a tasty nosh at the excellent café — and as many sheep as possible find welcoming new homes.

Patrick Goldsworthy MBE

About the Sale

This is an Unofficial Sale so does not have to follow the rules of the Southdown Sheep Society*. This means that there is no vet inspection (buyers should satisfy themselves that the sheep are fit for purpose), no minimum weights, no upset prices and 2025 born lambs do not need to be registered before the sale, but the breeder commits to registering the lambs with the Southdown Sheep Society if they are sold. Pedigree information has been extracted from the Pedeweb database.

**So that the Society does not miss out the auctioneer will be donating £10/flock entered to the Society.*

The final catalogue has been prepared by Bletsoes and Patrick Goldsworthy based on the information provided by the breeders participating in this sale. The details about their flock and their animals is the responsibility of the breeder and not that of the Southdown Sheep Society. If you have any queries about the sheep please contact the relevant breeders.

Sale Location

This sale will be located in the lower sale yard. Loading and Unloading of will take place as follows: **MV Accredited** Sheep at the Docks between the Café and Office. **Non-MV** at the Top Door. Signage will be displayed.

All entries are to be penned by 11.00am, for judging to commence at 11.30am. The sale will commence at approximately 12.30pm.

The sale will start with the Ewes and Ewe Lambs, these will be sold in their pens, the Rams will follow and be sold through the ring. The Heritage flock was founded in 2019 and is based on the core of the Spratton flock and existing Webb Ellis ewes that had Great Fen, Spratton or Holly Bar breeding lines. These are the more traditional type of Southdown which finish quicker at a lighter weight 32-36kg. Selection is based more on looks and pedigree – no Modern French genetics - rather than growth rate, although performance recording data is being used to improve muscling and maternal ability.

Health Info: Although not MV accredited the flock has been screened for MV six times in the last eight years. All adult and shearling ewes and rams are on Heptavac P Plus. These have also received one dose of Footvax in Nov 2024. Lambs have not yet been treated with Heptavac or Footvax. All animals will have been wormed and treated for fly but should be re-treated on arrival at their new home. Please ask for precise dates and batch numbers of vaccinations.

Webb Ellis - 968 - Patrick Goldsworthy MBE

Address and contact details as above

The Webb Ellis flock was founded in 2009 with breeding lines originating mostly from East Dean and Heathgate ewes. These have been improved over the years using performance recording with Signet to select sires which enhance muscling, growth rate and maternal ability. The progeny are more “commercial” in type and are producing heavier lambs: 38-42kg. As part of this improvement some NZ and Modern French genetics have been introduced to the flock. EBVs are listed against each animal. The national 2025 Terminal Sire EBV Average is 251.

Health Info: Identical regime to Heritage flock see above.
